9. ☐ Other _____

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Beverly Bunting on 4/10/2006.

The application has been amended as follows:

Claim 1, line 8, after "connecting" inserted --to-- and deleted "to the fixing element";

Claim 1, line 11, after "shanks are" inserted --adapted to be--;

Claim 1, line 16, deleted the first occurrence of "to" and changed "that extend" to --for extending--;

Claim 1, line 19, deleted the first occurrence to "the" and;

Canceled non-elected claims 4 and 5.

The following is an examiner's statement of reasons for allowance: In the environment of the claimed invention, the prior art does not disclose a shank having the shape formed by the combined "middle strut", "shanks" and "other shanks" as claimed with the specification providing definitions to the claim terms since as they are not applied using their general meaning in the art.

The closest piece of prior art is thought to be Kato (US 4,981,405) but, in considering Fig. 2 of Kato it can be seen that the shape lacks the "other free ends" in the context of the claims and as defined in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Flemming Saether whose telephone number is 571-272-7071. The examiner can normally be reached on Monday through Friday.
